ESMART® Reader
STONE Series

Two dimensions, many opportunities

69 mm

45 mm

Gangbox

Gangbox housing is suitable for installation on any flat surfaces and features a big area for custom laser engraving

Mullion `NEW`

Mullion housing featuring width of 45 mm perfectly fits for door applications requiring a narrow reader

Different technologies, one reader

MIFARE® Classic

Works with MIFARE® Classic credentials reading the UID or Sector Data with Crypto 1 key encryption

MIFARE® Plus

Works with MIFARE® Plus credentials reading the UID or Sector Data in SL3 mode with AES128 key encryption. Backward compatible with SL1 mode

Bank cards

Supports reading of bank cards in different modes. Reading mode is determined by facility requirements

ISO14443A / ISO15693

Reads the UID from any ISO14443A and ISO15693 credentials in a range up to 15 cm
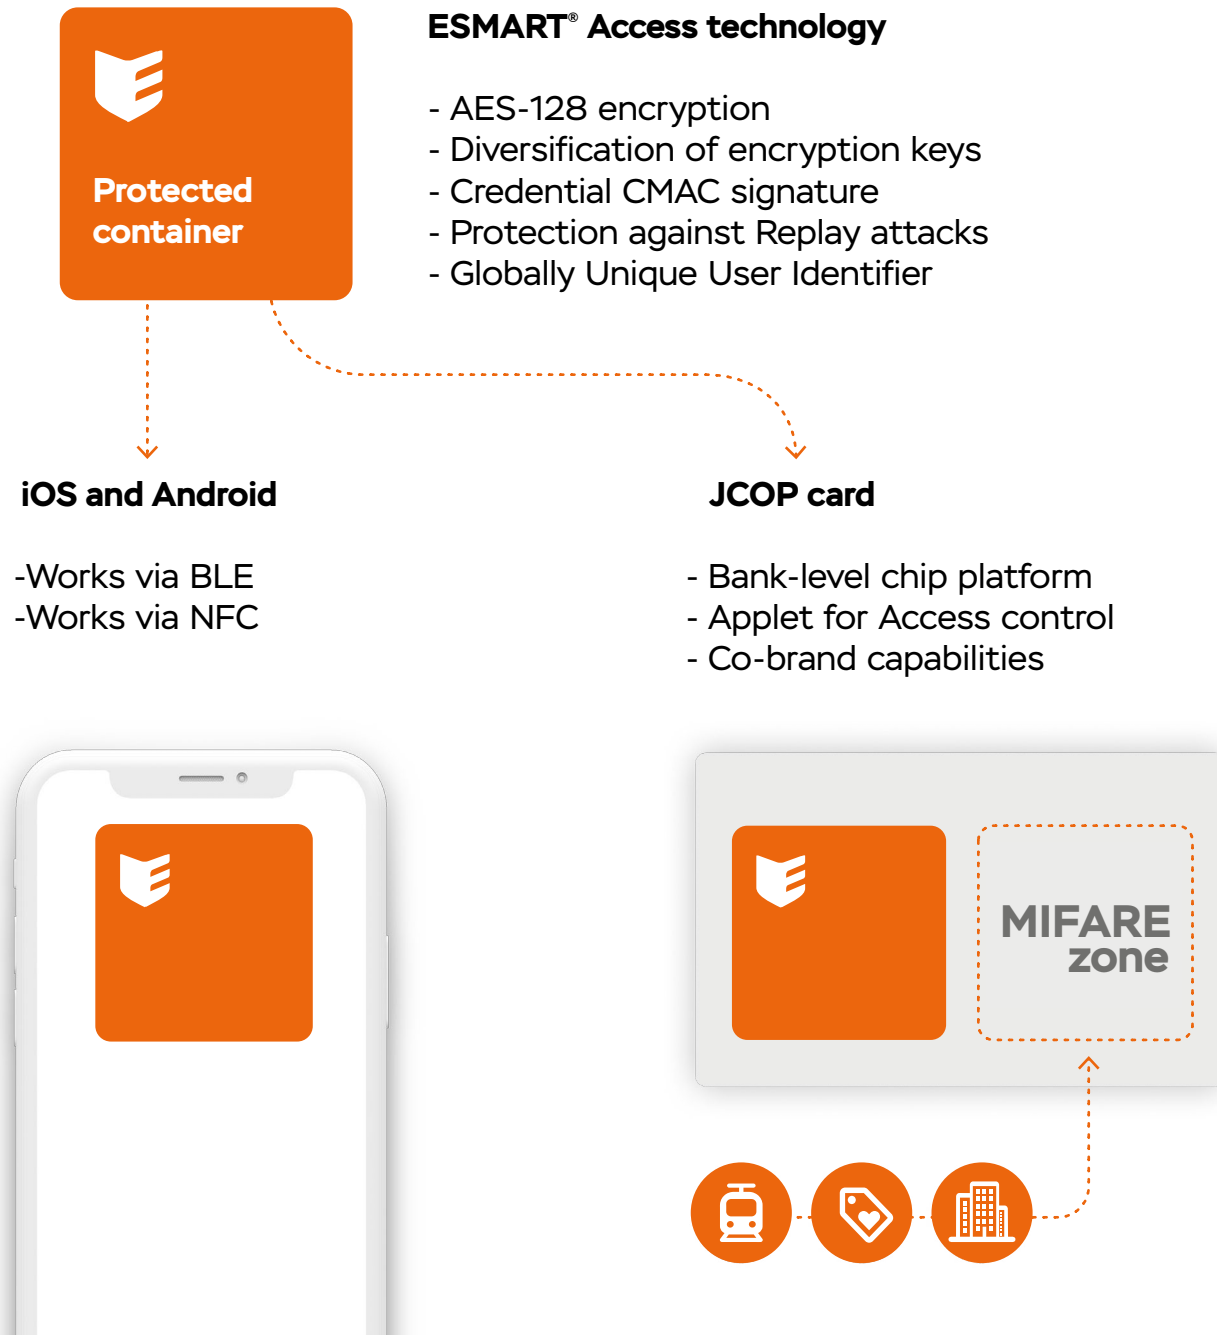

NFC + BLE

Compatible with 2.4 GHz (BLE) and 13.56 MHz (NFC) mobile credentials powered by ESMART® Access on iOS and Android

ESMART® Access

Supports Secure Multi-layered credential technology with five degrees for data authenticity and privacy protection

Access guarded

ESMART® Access technology

- AES-128 encryption
- Diversification of encryption keys
- Credential CMAC signature
- Protection against Replay attacks
- Globally Unique User Identifier

Protected container

iOS and Android

-Works via BLE
-Works via NFC

JCOP card

- Bank-level chip platform
- Applet for Access control
- Co-brand capabilities

MIFARE zone

Mobile enabled

ESMART® Access mobile application

Use your phone with a virtual card along with a regular smartcards in a more convenient way

iOS

Mobile identification works via BLE with iPhones thanks to secure ESMART® Access technology

Android

Depending on operation mode and phone model identification works via NFC or BLE

Access mode
Tap as card

Access mode
Free hands

Settings   Support

Individual housing color

DuPont Corian® device housing color palette consists of more than 100 colors.

Order devices that fit your interior concept perfectly

Order option:
EO1720 – for Gangbox
EO1520 – for Mullion

Individual laser engraving

Option of individual laser engraving provides limitless possibilities of placing the brand logo or a suitable designer pattern all over the device surface

Order option:
EO1780 – for Gangbox
EO1580 – for Mullion

ESMART® Configurator mobile application

Access Contol Administrators and Installers can manage ESMART® Readers right on the wall via BLE or NFC. It is possible to configure: Credentials reading modes, Wiegand output settings, BLE settings (range and reading frequency), LED and Buzzer behavior and other settings
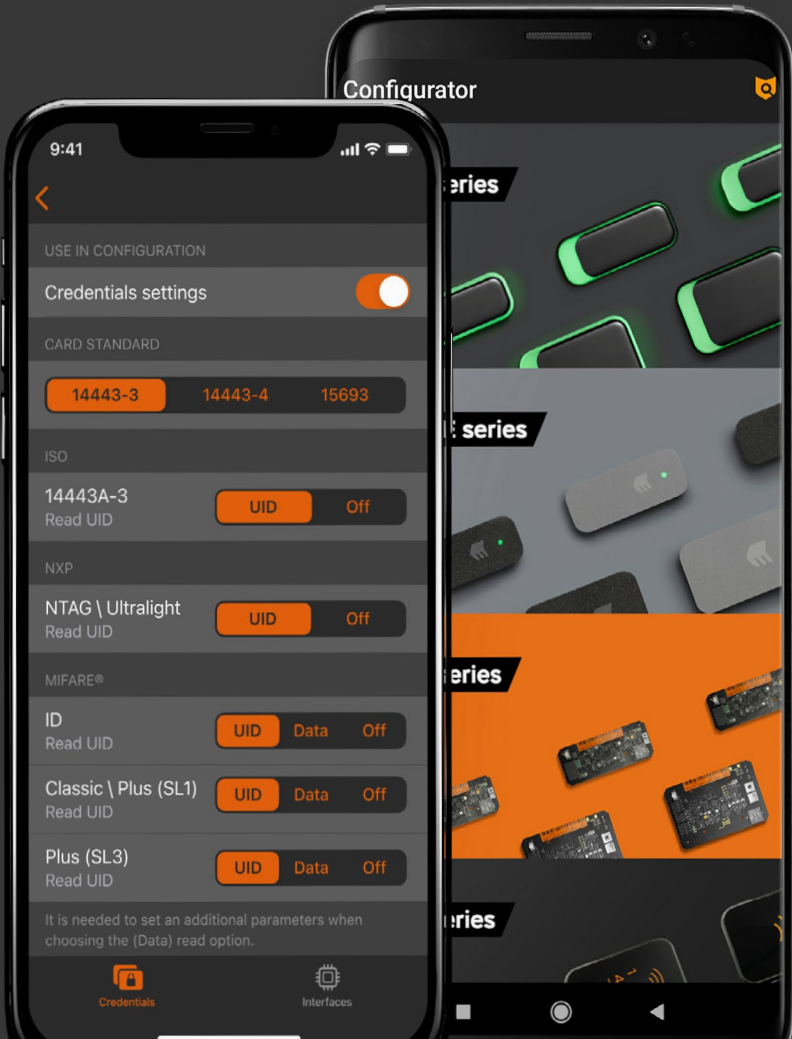

User Configurations   NEW

Recently introduced opportunity to create User Configurations right in the mobile application for advanced users

It is possible to order a batch of devices with individual configuration from the factory

Order option:
EO1790 – for Gangbox
EO1590 – for Mullion

Evening Prima

Configurator

USE IN CONFIGURATION

Credentials settings

CARD STANDARD

14443-3   14443-4   15693

ISO

14443A-3
Read UID   UID   Off

NXP

NTAG \ Ultralight
Read UID   UID   Off

MIFARE®

ID
Read UID   UID   Data   Off

Classic \ Plus (SL1)
Read UID   UID   Data   Off

Plus (SL3)
Read UID   UID   Data   Off

It is needed to set an additional parameters when choosing the (Data) read option.

Credentials   Interfaces

Metal Installation Kit

Installation on a metal surface reduces the reading range significantly.
The special material of the Kit helps to restore up to 70 % of the original range.

Installation Kit is provided with adhesive surface. The Kit includes two plates. It is recommended to install one on another to achive the maximum reading range

Order model:
EA1140 – for Gangbox
EA1540 – for Mullion

Expanded device Lineup NEW

The product line of ESMART® Reader series STONE has been supplemented with the LITE Lineup launch. Both product lines (BLE and LITE) are supplied in two housing dimensions (Gangbox and Mullion) featuring the same appearance and custom design capabilities. The devices differ functionally only.

Now you are able to combine the device models within one project to find an optimal and cost-effective solution perfectly fitting your project needs

LITE Lineup **BLE Lineup**

IP68 Ingress Protection

ESMART® Reader is completely protected against ingress of moisture and dust according to IP68 standard

-40…+85 ºC

The readers feature industrial temperature range and are completely protected against any weather challenges

	LITE	BLE
Mobile access	Not supported	ESMART® Access via BLE and NFC
Credentials	ESMART® Access, MIFARE® Classic, Plus (SL1/SL3), ISO14443 (UID)	LITE + ISO15693 (UID)
Bank cards	Read the UID, MIFARE® emulation mode	LITE + Read the CPLC
Reader management	Via NFC	LITE + Via BLE
Output	Wiegand 26…58, custom	Wiegand 26…58, custom
